**Section 2. Review of Course**

**2.1. Will this be a unique or common course?**

**Unique Course**

Prefix & No.	Course Title	Credits
MLS 441-441L	Diagnostic Microbiology II and Lab	3, 2
MLS 442	Clinical Microbiology	8-11

Provide explanation of differences between proposed course and existing system catalog courses below:

While MLS 441 and MLS 441L are similar courses, they have important differences compared to the proposed MLS 430. MLS 441-441L are full semester courses intended for on-campus students that build on content from MLS 341-341L and cover parasitology, mycology, advanced concepts and clinical correlation. MLS 442 is a theory and clinical internship course for USD MLS students completing their training in an 11-month clinical internship at an affiliated hospital program. MLS 430 Medical Laboratory Microbiology Theory and Practice will be a partial term course that includes online laboratory components. MLS 430 students will not be required to attend lab on-campus as part of the course but instead will participate in “Train in Place” training online and at their local sponsoring clinical site.
